Ideation Phase
Define the Problem Statements

Date	01-11-2026
Team ID	EN25CS3011097
Project Name	Global Olympic Sports Performance Analysis

Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

I am	*Describe customer with 3-4 key characteristics - who are they?*	A sports performance analyst / Olympic data officer who studies country, sport and athlete results from 1992 to 2026
I'm trying to	*List their outcome or "job" the core about - what are they trying to achieve?*	Understand which countries, sports and athletes drive Olympic performance
but	*Describe what problems or barriers stand in the way - what bothers them most?*	The data sits in 8,988 raw rows with four mixed record types and cannot be compared quickly
because	*Enter the "root cause" of why the problem or barrier exists - what needs to be solved?*	There is no single visual view that totals medals, ranks countries and counts athletes per sport
which makes me feel	*Describe the emotions from the customer's point of view - how does it impact them emotionally?*	Overwhelmed and unsure, unable to explain results to stakeholders

Example:

I am	I'm trying to	But	Because	Which makes me feel
a traveler	book flights on my phone	it takes a long time	The website is not responsive and doesn't have a mobile version	Frustrated

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	Sports analyst	Compare medal performance across countries	Raw rows are hard to rank and compare	Medals are split into gold, silver and bronze columns	Confused and slow to report
PS-2	Sports federation planner	Find which sports attract the most athletes	Participation is not summarised by sport	50 sports and 8,000 athlete records need aggregation	Unable to plan funding
PS-3	Sports journalist / student	Tell the story of dominant nations and top athletes	No ready narrative from raw tables	There is no dashboard or story flow	Frustrated, loses audience interest
