Business Question and Visualization Report

Date	01-11-2026
Team ID	EN25CS3011097
Project Name	Global Olympic Sports Performance Analysis

Visualization development refers to the process of creating graphical representations of data to facilitate understanding, analysis, and decision-making. The goal is to transform complex datasets into visual formats that are easy to interpret, enabling users to gain insights and make informed decisions. Visualization development involves selecting appropriate visual elements, designing layouts, and using interactive features to enhance the user experience. This process is commonly associated with data visualization tools and platforms, and it plays a crucial role in business intelligence, analytics, and reporting

Business Questions and Visualisation

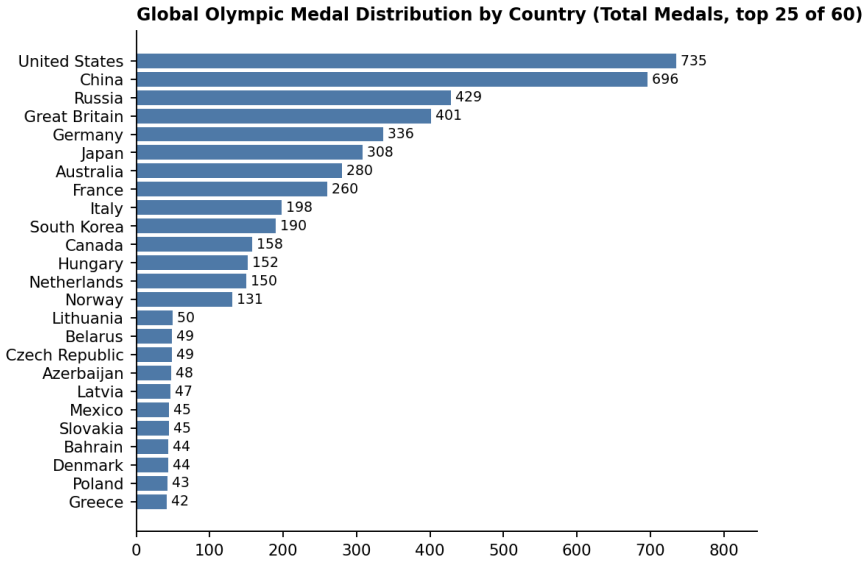

The process involves defining specific business questions to guide the creation of meaningful and actionable visualizations in Tableau. Well-framed questions help in identifying key metrics, selecting relevant data, and building visualisation that provide insights. The data source in Tableau is **athelete_events** (Snowflake table OLYMPIC_EVENTS, 8,988 rows × 56 columns).

1. Which countries win the most Olympic medals overall?

Visualization: Horizontal bar chart of total medals by country (top 25 of 60 countries shown).

Fields: Rows: Country | Columns: SUM(Total Medals) | Filters: Country, Dataset Type

Screenshot of visualisation

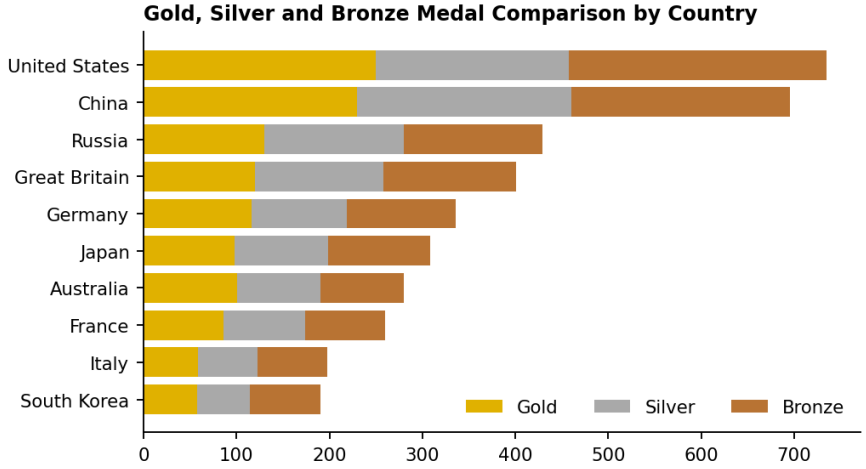

Insight: The United States (735) and China (696) lead by a wide margin, followed by Russia (429), Great Britain (401) and Germany (336).

2. How are gold, silver and bronze medals split among the leading countries?

Visualization: Stacked horizontal bar chart comparing gold, silver and bronze medals by country.

Fields: Rows: Country | Columns: Measure Values (Gold, Silver, Bronze) | Filters: Measure Names, Country, Dataset Type

Screenshot of visualisation

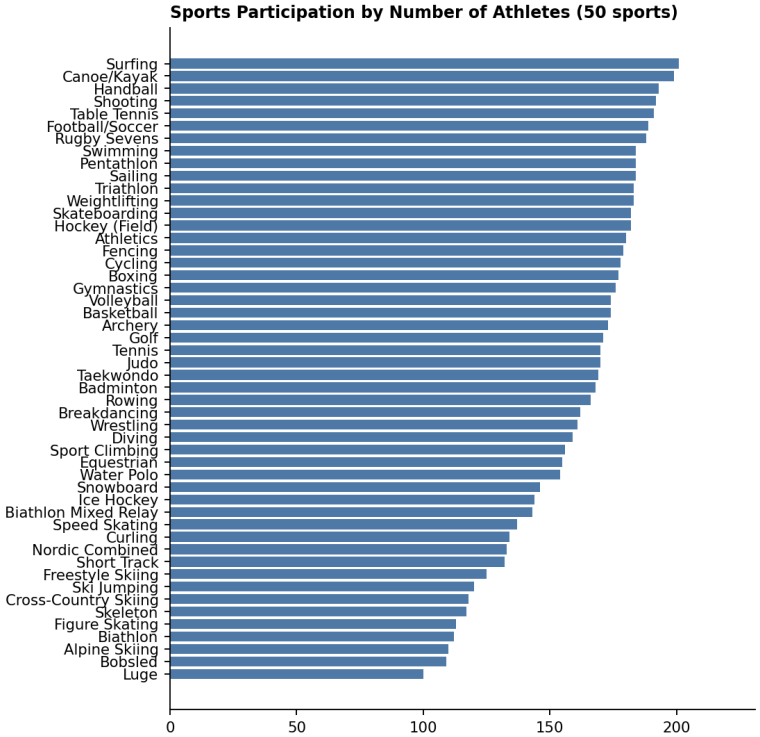

Insight: The gold race is close: United States 250 gold and China 230 gold, with silver and bronze adding up to 735 and 696 medals.

3. How many athletes take part in each of the 50 sports?

Visualization: Horizontal bar chart of distinct athletes per sport for all 50 sports.

Fields: Rows: Sport | Columns: COUNTD(Athlete Id) | Filters: Dataset Type, Sport

Screenshot of visualisation

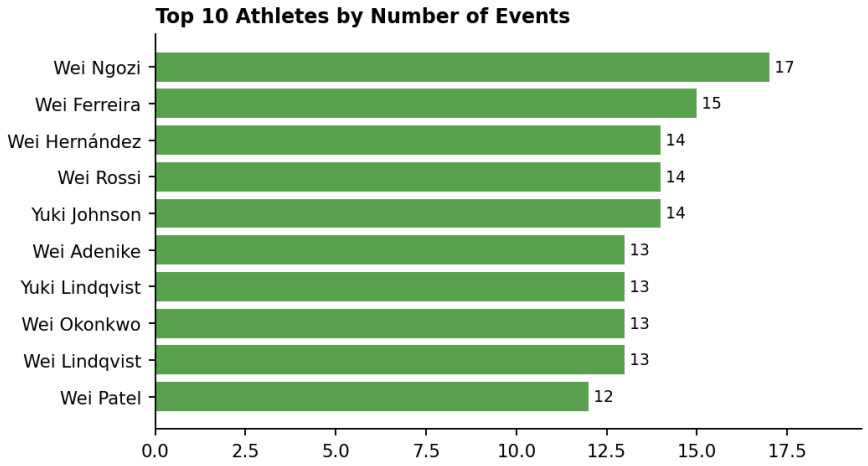

Insight: Participation is evenly spread, from 201 athletes in Surfing down to 100 in Luge.

4. Which athletes appear in the most events?

Visualization: Horizontal bar chart of the Top 10 athletes by number of events.

Fields: Rows: Name | Columns: COUNTD(Athlete Id) | Filter: Name (Top 10)

Screenshot of visualisation

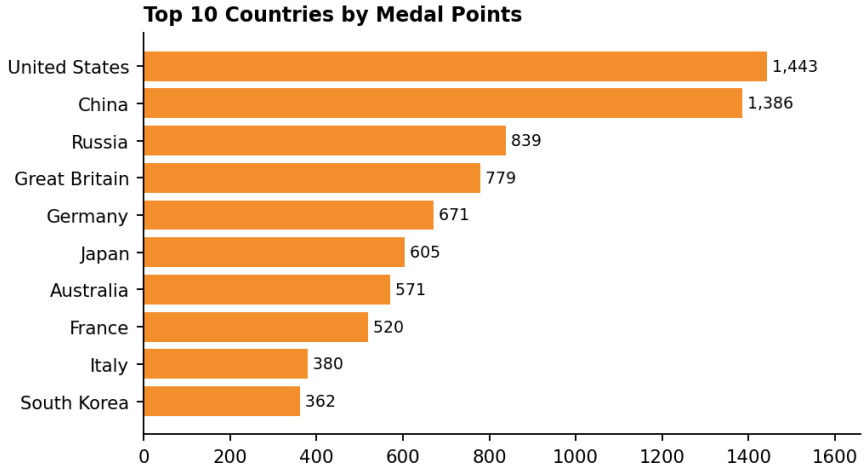

Insight: Wei Ngozi has the most records (17), followed by Wei Ferreira (15) and Wei Hernández, Wei Rossi and Yuki Johnson (14 each).

5. Which countries earn the most medal points across all Games?

Visualization: Horizontal bar chart of the Top 10 countries by total medal points.

Fields: Rows: Country | Columns: SUM(Total Medal Points) | Filter: Country (Top 10)

Screenshot of visualisation

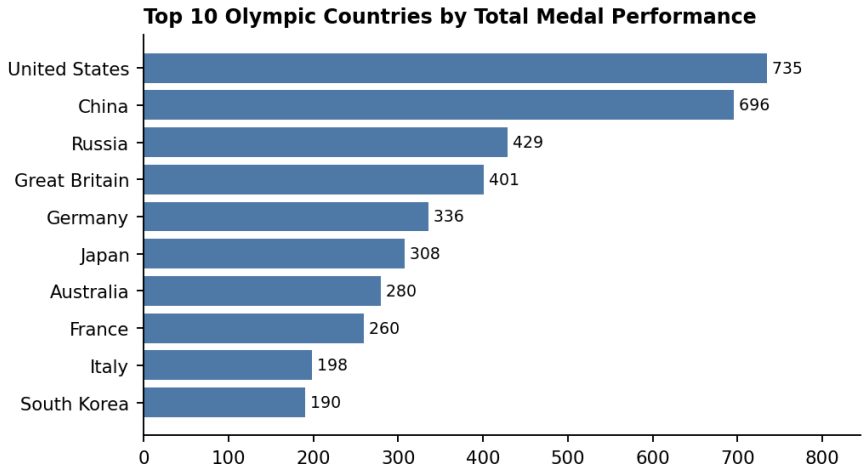

Insight: United States leads with 1,443 medal points, ahead of China (1,386); Russia follows with 839.

6. Which 10 countries have the best total medal performance?

Visualization: Horizontal bar chart of the Top 10 Olympic countries by total medals.

Fields: Rows: Country | Columns: SUM(Total Medals) | Filters: Country (Top 10), Dataset Type

Screenshot of visualisation

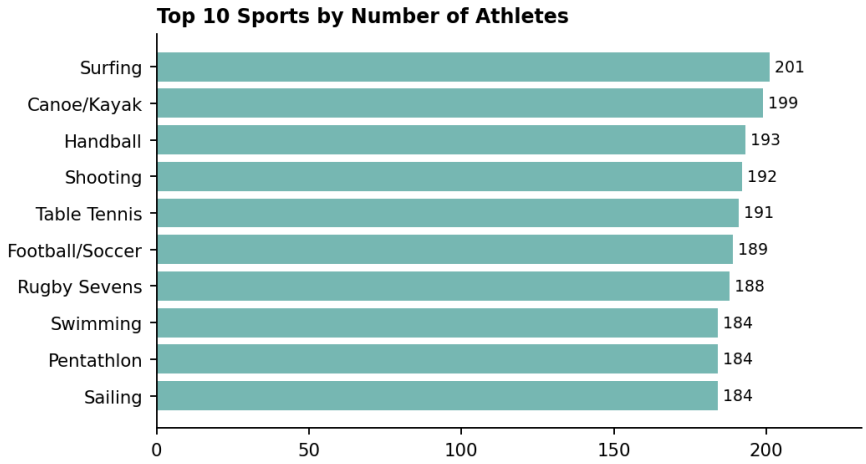

Insight: There is a large gap between the top two countries and the next group (Russia 429, Great Britain 401, Germany 336).

7. Which 10 sports attract the most athletes?

Visualization: Horizontal bar chart of the Top 10 sports by number of athletes.

Fields: Rows: Sport | Columns: COUNTD(Athlete Id) | Filter: Sport (Top 10)

Screenshot of visualisation

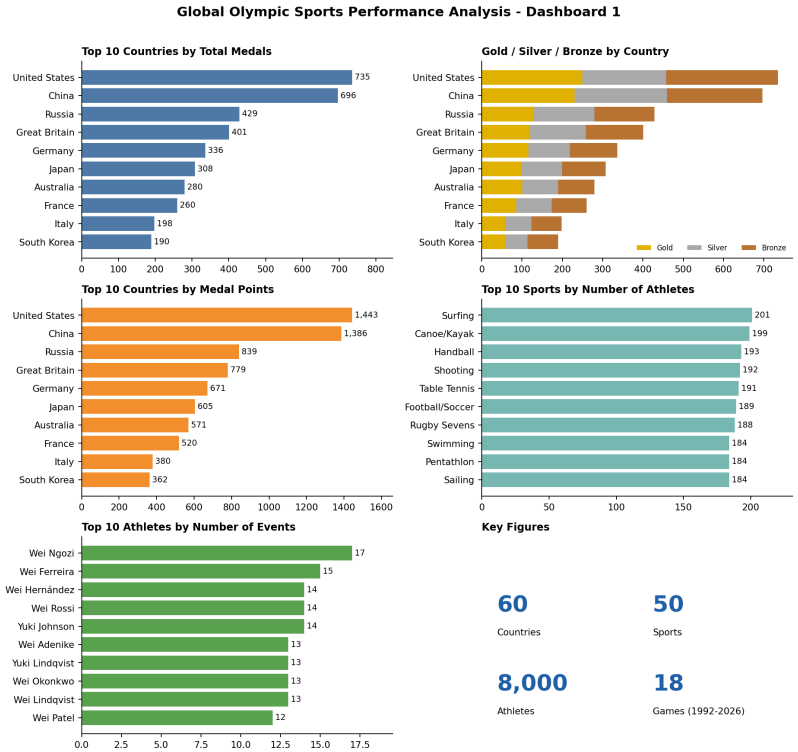

Insight: Surfing (201), Canoe/Kayak (199) and Handball (193) have the most athletes; the Top 10 sit between 184 and 201.

8. What is the overall Olympic performance picture across countries, sports and athletes?

Visualization: Interactive dashboard (Dashboard 1) combining the bar charts with key figure tiles.

Fields: Dashboard 1: five worksheets + Key Figures (Countries, Sports, Athletes, Games) with filters

Screenshot of visualisation

Insight: Key figures: 60 countries, 50 sports, 8,000 athletes and 18 Games (1992–2026, 9 Summer and 9 Winter).
