Communication

Date	01-11-2026
Team ID	EN25CS3011097
Project Name	Global Olympic Sports Performance Analysis

Communication Plan:

Effective communication is essential for a successful project demonstration. This document outlines the communication strategy used within the team and with stakeholders throughout the project lifecycle, including how updates, issues, and feedback were managed.

S.No	Communication Type	Frequency	Channel / Tool	Participants	Purpose
1	Team Standup	Daily	WhatsApp group / Google Meet	All team members	Share daily progress on data preparation, worksheets and documentation
2	Progress Update	Weekly	Google Meet; shared Google Drive folder	All team members, mentor	Review completed sprint tasks and story points
3	Issue / Bug Discussion	As Needed	WhatsApp group / Tableau Desktop screen share	Concerned team members	Resolve data, filter and calculated-field issues
4	Stakeholder Review	Bi-Weekly	Google Meet / email	Team, mentor / evaluator	Collect feedback on dashboard, story and phase documents
5	Final Demo Rehearsal	Once	Google Meet / in person	All team members	Practise the demo flow and timing before presentation
6	Document Sharing	Weekly	Google Drive (Phases folder)	All team members	Share and version the phase PDFs, workbooks and dataset

Communication Challenges & Resolutions:

S.No	Challenge Faced	Resolution / Action Taken
1	The dataset mixes four record types in one CSV, which caused confusion about which fields to use in each view	Agreed a team rule to filter by dataset_type in every worksheet and recorded it in the phase documents
2	Different team members created worksheets with different measures, giving inconsistent totals	Defined one calculated field (Total Medals Calculated) and shared the packaged .twbx files for review
3	Template versions and documents were scattered across devices	Moved all files to a single shared Google Drive folder organised by phase
