Project Planning Phase
Project Planning Template (Product Backlog, Sprint Planning, Stories, Story points)

Date	01-11-2026
Team ID	EN25CS3011097
Project Name	Global Olympic Sports Performance Analysis

Product Backlog, Sprint Schedule, and Estimation

Use the below template to create product backlog and sprint schedule

Sprint	Functional Requirement (Epic)	User Story Number	User Story / Task	Story Points	Priority	Team Members
Sprint-1	Data Collection & Cleaning	USN-1	As an analyst, I can download the Olympic datasets from Kaggle and official sources	2	High	
Sprint-1		USN-2	As an analyst, I can merge athlete records with country (NOC) data	3	High	
Sprint-1		USN-3	As an analyst, I can remove duplicates and handle missing values in the data	3	High	
Sprint-1		USN-4	As an analyst, I can standardise country, sport and year fields	3	High	
Sprint-1		USN-5	As a developer, I can store the cleaned data in a SQLite database	2	Medium	
Sprint-1	Exploratory Analysis	USN-6	As a user, I can see the medal tally by country and year	3	High	
Sprint-1		USN-7	As a coach, I can analyse athlete age, height and weight by sport	2	Medium	
Sprint-1		USN-8	As a user, I can see the gender participation trend over the Games	2	Medium	
Sprint-2	Backend & Dashboard	USN-9	As a developer, I can set up the Flask backend and API endpoints	3	High	
Sprint-2		USN-10	As a user, I can open a dashboard home page with a clear layout	3	High	
Sprint-2		USN-11	As a user, I can filter results by year, country, sport and gender	3	High	
Sprint-2	Visualisation	USN-12	As a user, I can view medal tally and country ranking charts	3	High	
Sprint-2		USN-13	As a user, I can compare performance across sports using charts	2	Medium	
Sprint-2		USN-14	As a coach, I can view athlete age and physique charts	2	Medium	
Sprint-2		USN-15	As a user, I can view performance of host cities and host countries	2	Low	
Sprint-2		USN-16	As a user, I can download the filtered data as a CSV file	2	Low	
Sprint-3	Performance Prediction	USN-17	As a developer, I can prepare features for the prediction model	3	High	
Sprint-3		USN-18	As a developer, I can train a model to predict medal performance	5	High	
Sprint-3		USN-19	As a developer, I can evaluate the model accuracy	3	High	
Sprint-3		USN-20	As a user, I can see predicted performance on the dashboard	3	High	
Sprint-3	Comparison & Insights	USN-21	As a user, I can compare two or more countries side by side	3	Medium	

Sprint	Functional Requirement (Epic)	User Story Number	User Story / Task	Story Points	Priority	Team Members
Sprint-3		USN-22	As a federation member, I can identify strong sports and talent gaps of a country	3	Medium	
Sprint-4	Testing & Deployment	USN-23	As a tester, I can test the dashboard filters and charts	3	High	
Sprint-4		USN-24	As a developer, I can fix bugs and improve performance	3	High	
Sprint-4		USN-25	As a user, I can use the dashboard on a mobile screen	3	Medium	
Sprint-4		USN-26	As a user, I can access the deployed application online	3	High	
Sprint-4	Documentation	USN-27	As a user, I can read a short user guide for the dashboard	3	Medium	
Sprint-4		USN-28	As a team, we can complete the final report and presentation	5	High	

Project Tracker, Velocity & Burndown Chart:

Sprint	Total Story Points	Duration	Sprint Start Date	Sprint End Date (Planned)	Story Points Completed (as on Planned End Date)	Sprint Release Date (Actual)
Sprint-1	20	6 Days	01 Nov 2026	06 Nov 2026		
Sprint-2	20	6 Days	08 Nov 2026	13 Nov 2026		
Sprint-3	20	6 Days	15 Nov 2026	20 Nov 2026		
Sprint-4	20	6 Days	22 Nov 2026	27 Nov 2026		

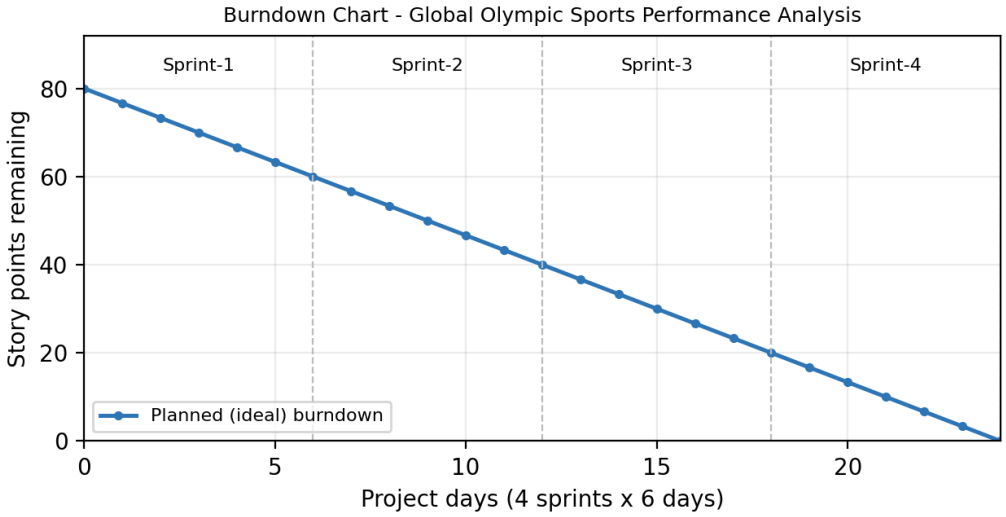

Velocity:

The sprint duration is 6 days and the velocity of the team is 20 (story points per sprint). The team's average velocity (AV) per iteration unit (story points per day) is calculated as follows:

AV = Sprint Velocity / Sprint Duration = 20 / 6 = 3.33 story points per day

Burndown Chart:

A burn down chart is a graphical representation of work left to do versus time. It is often used in agile software development methodologies such as Scrum. However, burn down charts can be applied to any project containing measurable progress over time.
